ABOUT

Aspiring full-stack developer skilled in MERN and Laravel, experienced in building secure, scalable web apps. Strong in Data Structures & Algorithms and familiar with System Design principles. Passionate about backend engineering, API development, and problem-solving, with 250+ coding challenges solved. Eager to learn, innovate, and contribute to impactful projects.

EDUCATION

Noida Institute of Engineering and Technology

09 2022 – 06 2026

B.Tech - Computer Science and Engineering

Noida, India

Bharat Ram Global School

03 2021 – 05 2022

Class 12 — Percentage: 76%

Greater Noida, India

TECHNICAL SKILLS

Languages: C++, JavaScript, PHP, HTML, CSS, SQL

Frameworks / Libraries: Laravel, React.js, Express.js, Node.js, Bootstrap

Developer Tools: Git, GitHub, VS Code, Laravel Artisan

Databases: MySQL, phpMyAdmin, MongoDB

EXPERIENCE

WoRisGo

July 2025 – Sept 2025

Backend Intern

Remote, India

- Trained in PHP and Laravel, covering MVC architecture, routing, and RESTful APIs.
- Worked with SQL databases—data modeling, joins, normalization, and CRUD operations.
- Built backend features using Laravel middleware and Eloquent ORM.
- Used migrations, query builder, and Artisan CLI for backend tasks.

PROJECTS

Car Rental Website | MERN (MongoDB, Express.js, React, Node.js)

- Built a car rental platform with React.js frontend and Node.js/Express.js backend.
- Added real-time car availability, booking forms, and an admin dashboard.
- Integrated APIs for bookings, payments, and rental management.
- Hosted frontend on Vercel and backend on Render.

Real-Time Chat App | MERN, Socket.io

- Created a live chat app with instant messaging using Socket.io.
- Added typing indicators, online status, and secure JWT authentication.
- Stored chat history and user data in MongoDB.
- Built responsive UI with React.js and managed backend with Node.js/Express.js.

E-Commerce Website | React.js, Node.js, MongoDB

- Built a full-stack e-commerce app with React frontend and Node.js/Express backend.
- Integrated secure checkout, real-time inventory, and order tracking.
- Managed product and user data with MongoDB, optimized for search and filters.
- Deployed on Vercel and Render with CI/CD pipelines for seamless updates.

CERTIFICATIONS

- ReactJS by Infosys Springboard
- MongoDB by Infosys Springboard
